

Royal Commission of Inquiry Completes Its Work in Coleman

Over Thirty Witnesses Give Evidence Before Chief Justice
on Explosion of Year Ago--Intense Public Interest
Followed Sessions Throughout Entire Week

After a week of hearing a mass of evidence on the McGillivray mine explosion of just a year ago, the royal commission terminated its sessions on Tuesday at noon. The inquiry was very thorough, no avenue was left untouched which might bring light on the cause of the regrettable disaster whereby valuable lives were lost and thousands of dollars worth of damage caused. Every opportunity was given to any person who considered he might be able to throw any light on the explosion or had any suggestions to offer towards preventing similar happenings, and the sittings were followed with keen interest and much publicity was given through complete reports in the daily newspapers of Southern Alberta, the Lethbridge Herald especially covering the inquiry very fully. To the layman, who though living in a mining district, is not familiar with the practical work of mining, a great deal of valuable information was disseminated concerning the hazards that exist in mines, and gives cause for reflection that the greatest care must be exercised at all times to safeguard the lives of those who work beneath the surface.

As to the results of the inquiry, the consensus of opinion that previously existed is more fully confirmed that the fatal explosion occurred at the face of No. 4 entry. As to whether it was caused by the use of the explosive known as Gelpernite No. 1, or from a cause that suddenly came into existence unknown to previous experience in the mine, will probably never be settled. As General Manager Kellock stated, he was very pleased to know that Fire Boss William White, who was in charge of operations where the explosion occurred, and who with others was killed, had been engaged by the company, as he was a man in whom he had every confidence, and among the workers he was highly thought of and known to be a careful and efficient man. Superintendent Davidson and Pit Boss McDonald, men of years of mining experience, were most vigilant in seeing that every precaution was observed to ensure the safe working of the mine, yet in spite of all that man could do, their proud record of

the mine was marked by an accident which apparently human knowledge was powerless to prevent.

The inquiry was of interest from various viewpoints. Andrew Dow, very ably representing the miners, was given every opportunity of presenting their views to the commission, and contributed much to the general information placed before the commission. Undoubtedly his practical knowledge and his interest in his particular work enabled him to speak with authority when dealing with controversial points before the court, and he conducted his presentation of the case with considerable ability. His confidence was unshaken under very severe cross examination, though at times he bordered on the dramatic in reciting the experiences following the explosion, which gave some color to the proceedings and relieved the tedium which is bound to be ever prevalent in a lengthy inquiry. For one inexperienced in legal technique, he acquitted himself remarkably well.

Another feature made evident in the inquiry is the spirit of comradeship that exists among mine workers, who daily encounter hazards that are not prevalent in occupations above ground. When quick action is necessary to save lives, risks are taken which would be frowned very severely upon under ordinary circumstances, but if there is a chance of saving a life, the miner knowingly risks his own in order to try and rescue a comrade. Incidents that came out in the evidence demonstrated this, and added to the general interest of the sessions.

The inquiry was very ably presided over by Chief Justice Harvey. There was not the least hint of cutting short testimony of any kind, no matter what its source may have been and it is worthy of comment that the commission brought into play every known agency that might be able to throw light on the fatality. Experts from the explosives branch of the Federal department of mines, mining inspectors, officials, miners, results of tests, experimental tests, all played their part in an effort to discover the cause.

(Continued at foot of column three)

Grant to Rink

At a meeting of the town council held on Tuesday evening it was decided to grant \$200 to the rink company, and all children were to be allowed a week's free skating. No announcement has been made yet by the rink company as to the schedule for season tickets.

Oddfellows District Meet

A very pleasant evening was spent at the Oddfellows Lodge on Monday on the occasion of the visit of the grand master, V.V. Christie, of Cardston. Delegates were present from Cowley and Blairmore, the Bellevue delegates being prevented from attending by a snowstorm. The district deputy grand master for the ensuing year will be elected from the Bellevue lodge.

Chris. Rogers Seriously Injured at Mine Tiptle

Chris Rogers was the victim of a distressing accident on Saturday morning at the McGillivray mine tiptle, when the floor of his overalls was caught in the cogs of two gear wheels and his arm drawn in and the bones crushed above the elbow. He retained consciousness and was able to walk to an automobile to convey him to the hospital, where the injuries were found to be so serious that amputation was resorted to by Dr. Borden.

Will Meet on Sunday

The St. John Ambulance Association are holding a general meeting in the council chambers on Sunday, Nov. 27th, at 2 p.m. All members of the association are requested to be present, as anyone interested in this work.—J. Rushton, Sec.

The rink will probably open this week-end.

You cannot send all your friends presents as you would possibly like to, but it is easy to send them a Christmas greeting card. The Journal office has many fine designs from which you may select, and with your name printed on and envelopes supplied it saves you a lot of trouble at the Christmas season. Telephone or call for sample books.

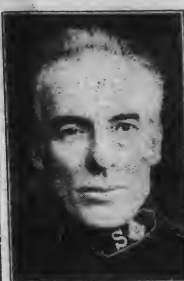

At a meeting of the Board of Trade held on Tuesday evening H. T. Halliwell was appointed as delegate to the conference of Southern Alberta boards of trade to be held in Calgary on Monday and Tuesday next.

At the weekly whist drive of the Oddfellows on Saturday the prizes were won by Mrs. A. Anderson, Mrs. A. Muir, Thos. Flynn and W. Milly. The floating prizes were won by Mrs. A. Anderson and R. Vincent. At the dance following there were a number of gentlemen present who were staying over in connection with the inquiry commission, who spent a very enjoyable hour.

cause, and it might be said that it would be hard to find a point on which to criticise the commission in this respect, as its work while sitting in Coleman was conducted in a most thorough going manner and in a spirit of co-operation with a keen desire, as the Chief Justice stated at the outset, to get all the facts and as much other information as possible. Those who attended the inquiry will agree that its work was carried out in a most thorough manner.

As to its findings, that is a matter for further conjecture, and which in due time will be made known.

Coming to Coleman

COMMISSIONER RICH

Next Wednesday, Coleman will be visited by Commissioner Rich, who supervises the activities of the Salvation Army through the whole of Canada West, extending from the Great Lakes west and up into the Yukon. In the evening he will give an address on "The Romance of the Salvation Army," illustrated by slides, and undoubtedly it will be of special interest to the public generally, who are cordially invited. Mayor Burns and representative men of the town are being specially invited, and Captain Hind extends a general invitation to the people of Coleman.

Accompanying the commissioner will be Adjutant Mundy, who was the first officer in charge of the local corps of the S. A. when it was established in Coleman twelve years ago. It will be a pleasure to meet the visitors, and it is hoped there will be a large number of citizens out to hear them.

In Memoriam

JOHNSTON—In Loving Memory of a dear son and brother, George Johnston, who entered into rest November 23, 1926. He had a nature you could not help loving. And a heart that was purer than gold. And to you who knew him and loved him. His memory will never grow cold. His loving Mother and Father, Sisters and Brothers.

WHITE—In Loving Memory of our dear husband and father, William White, killed in the McGillivray mine explosion, Nov. 23, 1926. Treasured memories of one so dear. Are oft recalled by a silent tear. From his loving wife and son Sidney.

YOUNG—In Loving Memory of "Tom" Young, who lost his life in the McGillivray mine explosion, Nov. 23, 1926. "Our fondest love shall ever linger. Round the spot where he is laid."—Inserted by his loving parents and sisters.

FAIRFALL—In Loving Memory of my dear husband, and my dear father, Robert Fairfall, who was killed in the McGillivray mine explosion, Nov. 23, 1926. As we loved him, so we miss him. In our memory he is dear. Loved, remembered, longed for always. Bringing many a silent tear. Inserted by his wife and daughter, East Coleman.

District Court was held at Blairmore on Tuesday, Judge Angus McDonald of Macleod presiding. R. F. Barnes, barrister, was in attendance from Coleman.

Town of Coleman

Owing to the shortage of work at the mines during the past three months, the town council has decided to extend the period of 10 per cent. discount allowance on town taxes up until and including December 12th, 1927.

JAMES FORD, Sec. Treas.

Curiers Elect Skips

A meeting of the curiers was held in the Council chamber on Monday evening, when the following were elected as skips:

O. E. S. Whiteside, Geo. Kellock, H. C. McBurney, S. Moores, J. Moore, W. Roughhead, D. Davidson, W. L. Rippon, J. Emmerson, J. Bell, J. Allan, E. Ledieu, A. M. Morrison, R. Young, J. Houghton, J. H. Boulton.

It is probable that games will start towards the end of the week, the rink having been flooded and preparations are now under way to get schedules arranged and rinks filled as early as possible.

Women's Institute Meeting Discusses War Memorial

The regular meeting of the Women's Institute was held at the home of Mrs. Burns on Nov. 22.

The Institute had on hand a sum of more than \$60. This was transferred to the Coleman Memorial Fund. It is understood the local committee intend taking immediate action in erecting some sort of memorial for the local men who served overseas.

It was decided to ask the Dept. of Agriculture for a three day demonstration in raffia weaving as the last bakery course proved so successful. A sum of \$15 was voted to the Armenian Relief of the Save the Children Fund.

As this was also the annual meeting, officers for the following year were elected: Honorary pres., Mrs. A. E. Graham; president, Mrs. Burns; first vice, Mrs. Ash; second vice, Mrs. Prior; sec. treas., Mrs. Lindoe. Directors, Mrs. A. McLeod, Mrs. Corbett, Mrs. Graham. Auditors, Mrs. Rippon, Mrs. Graham. Publicity convenor, Mrs. A. Short.

St. Alban's W. A. Meeting

The regular meeting of the St. Alban's W. A. took place at the parish hall on Thursday, Dec. 1, at 7.30 p.m. At the close of this meeting the annual meeting will be held. All members are asked to be present and on time in order that the meeting may commence at 7.30 sharp.

As the women do 90 per cent. of the buying for the home, it is of importance that they be kept fully informed of what stores have to offer. Volume of sales can be increased by timely advertising, and The Journal goes into nearly every home in Coleman.

Card of Thanks

The Rev. A. D. Currie wishes to thank all those who either sent gifts or made so many kind enquiries during his recent illness. He hopes in the near future to thank them all personally.

Men's Rubbers At \$1.00 Per Pair

50 pairs of Gutta Percha and Dominion to clear at less than cost, at \$1.00. Why slip and slide and risk a broken limb when you can purchase safety at this price

Party Dresses

for Junior Misses 14 to 19 years, in Taffeta, and Crepe de Chine, values regular up to \$25.00, now \$14.95 and \$12.50

SPORT DRESSES

Velvets and Jersey at Good Values

DOLLS!

An amazing display that will make the eyes of the children sparkle with delight. Come and see them.

H. E. GATE

Free! HANDSOME Free! PLATE With \$5.00 Purchase

The greatest satisfaction in purchasing at our store is in knowing that you are getting the best quality goods obtainable at the prices we sell at. The pleasure of buying at home far outweighs the imaginary benefits of buying elsewhere.

We are stocked to meet the winter trade in every line of clothing, footwear, underwear, etc., and to every purchaser of \$5.00 of goods a handsomely designed plate is given.

C. Nicholas

Dry Goods, Clothing and Shoes for the Whole Family

REPORT ON ICE CONDITIONS AT PORT CHURCHILL

Ottawa.—Present conditions at Port Churchill and Port Nelson are similar with respect to the ice situation, according to a statement issued by the Department of Railways and Canals. Both rivers are full of ice, moving up and down with the tides. The statement says in part:

"The Department of Railways and Canals is in almost daily touch with temperature and weather conditions at Nelson and Churchill. The latest message received was on the 14th and conditions at that time were exactly the same at Churchill and Nelson, both rivers being full of ice, moving up and down with the tides.

"On November 6 ice formed temporarily at Churchill, but not to an extent sufficient to have presented any difficulty to ice breakers such as are employed in the St. Lawrence and at the head of the lakes to deal with similar conditions. At that time the approach to Churchill was entirely free of ice, whereas a great deal of heavy ice was visible off Nelson. That has been observed to be a recurrent condition there, and is one of the difficulties associated with navigation in the Nelson estuary where deep water is 20 miles from the partially constructed harbor works. Heavy ice was not observed off Churchill until the 15th instant. Temperature records of both water and air indicate that the reason at Hudson Bay is abnormal to the extent of two or three weeks."

Says Bolshevism Is

Being Undermined

End Of Soviet Rule Predicted By Writer

London.—The Warsaw correspondent of the Daily Mail, explaining that he has just returned from Moscow, says that the anniversary celebrations and the consequent action against the oppositionists signify a split in the Communist party, and "show that forces are at work which will in the long run must undermine Bolshevism."

The writer declares that thousands of those who applauded Trotsky's opposition speech November 7 were arrested. It was rumored that Trotsky himself had been arrested and that his supporters in some places had been shot down, but this could not be verified.

A Blum dispatch to the Daily Mail reports that Trotsky and Gregory Zinoviev have been outlawed and deprived of their homes and means of existence. The correspondent transmits rumors of possible military revolts, with the city group prepared to take flight if necessary.

French Hostages Released

Held Captive By Moorish Brigands Until Large Ransom Was Paid

Babat, Morocco.—The six French hostages kidnapped by the Moorish brigands in October, and held for ransom of 2,000,000 francs, in gold, or approximately \$400,000, have arrived at French outposts.

The prisoners, arrangements for whose ransom had been made, included Yves Steng, nephew of the French resident general, Jean Mallier, Baroness Von Stiehl, Madame Marie Prokoff and two little girls named Armand, whose parents were murdered recently.

The prisoners were delivered to French outposts at East Batta, at 4 p.m., after the ransom had been paid. Steng and his party were kidnapped on October 22, while on a hunting trip. The two children were kidnapped several days previously.

Finger Prints By Radio

London.—The successful use of radio to exchange finger prints between the police of Southwest Yard and Chicago was announced here. Finger prints exchanged by wireless enabled the London police to identify a man held here as one wanted in the United States city. The authorities indicated the man would be returned to Chicago.

Mexico Bans Food Exports

Mexico City.—For the purpose of conserving domestic food supplies, the government has prohibited an order forbidding the exportation from Mexico of "articles of necessary consumption." These include corn, wheat, beans, peas, potatoes, salt, butter and sugar. Coal may also be included in the list.

W. N. U. 1708

"Britain's Waning Prestige"

New York Editor Speaks Of Alliance With United States

Chicago.—Great Britain is trying to avert the disintegration of the Empire upon which "the sun never sets," by formation of a union with the United States, Charles Edward Russell, New York editor and lecturer, declared at the trial of William McCandless, suspended superintendent of schools.

Russell, who was conspicuous on public information to England during the world war, was called to substantiate charges of Mayor William Hale Thompson that British propaganda had entered schools of the United States in history texts.

Since the world war, British dominions have drawn away from the mother country and the British foreign markets have been narrowed, Russell testified. A waning prestige in world affairs would be restored through an alliance with the United States, he contended.

Should London propaganda be successful in the United States and an English-speaking union result, a war between Britain and the United States on one side, and France, Spain, Italy, Portugal, Mexico and South America on the other would be inevitable, Russell predicted.

Drastic Changes In Manitoba Liquor Law

Will Be Submitted By Provincial Government When Legislature Assembles

Winnipeg.—In a determined attempt to eliminate the bootleg liquor trade from the province, the Manitoba Government has prepared drastic changes in the provincial liquor laws, according to reports emanating from the parliament buildings. It is reported that not only will the sale of beer by the glass be instituted, as the voters demanded in the plebiscite of last June, but the government will through a cash and carry system.

"Sweeping changes in the liquor laws of the province are made in the legislation which the provincial government will submit when the legislature assembles next month."

"All existing liquor legislation is repealed and the new law will, according to unofficial but reliable reports, profit not only for the sale of beer by the glass, but for the sale of hard liquor by the bottle, or the cash and carry system."

Twenty-Five Nations Enter Olympic Games

Hockey Players From Canada Will Participate In Winter Sports

Geneva.—Twenty-five nations have announced their intention to take part in the second Olympic winter games in February, 1925, at the famous Swiss winter sport resort of St. Moritz.

Preparations under way as well as the entries that have been made in change in the design of the Olympic rings, from February 10 to 15, includes individual contests, team contests and demonstrations. These cover skating, skiing, hockey and bob-sledding, besides demonstrations of "ski-joring" or skiing behind horses.

The hockey contests will have representatives of the best ice teams of the world, including those of Norway, Sweden, Poland, Czechoslovakia, Canada and many others.

The hockey teams will have representatives of the best ice teams of the world, including those of Norway, Sweden, Poland, Czechoslovakia, Canada and many others.

Pays Death Duties

London.—Right Hon. Winston Churchill, chancellor of the exchequer, announced in the House of Commons that Lady Houston, widow of Sir Robert Houston, had paid to the government \$750,000 as an "act of grace," despite the fact that the wealthy shipbuilder before his death moved to Jersey Island, presumably to avoid the high British death duties.

A More Unified Canada

Toronto.—Despite the attractive offers made to farm life by modern conveniences, Canada's youth will not stay on the land until agriculture is put on the same footing as industry, declared Premier J. E. Brownlee, Alberta, speaking here. He also stressed the inter-dependence of the provinces, in urging a more unified Canada.

Fined For Cruelty

Ottawa.—Carrying five hogs with their heads downward causes the birds unnecessary suffering, Magistrate Hopewell held in the police court here. He fined two women who persisted in carrying their fowl in that manner after they were warned by the humane society inspector.

Figures In British Finance

E. R. Peacock, M.A. of London, England, former Canadian, son of a Glasgow merchant, and once on the staff of Queen's University, Kingston, who is now a dominant figure in British finance. He is at present in Canada and calls the Dominion the country of the future.

E. R. Peacock, M.A. of London, England, former Canadian, son of a Glasgow merchant, and once on the staff of Queen's University, Kingston, who is now a dominant figure in British finance. He is at present in Canada and calls the Dominion the country of the future.

BRITAIN DECIDES ON REDUCTION OF NAVAL PROGRAM

London.—Although provision was made in current naval estimates for laying down three new British cruisers this fiscal year, only one will actually be laid down, Right Hon. W. C. Bridgeman, first lord of the Admiralty, told in question in the House of Commons.

Mr. Bridgeman said the Government had decided that in view of the situation disclosed at the recent Geneva tripartite naval disarmament conference it was not necessary to proceed with laying down the other two vessels this year.

Commenting on the statement the Westminster Gazette's political correspondent says:

"The Government at last has bowed to the storm of protest from the country on the excessive national expenditure and the need for further disarmament measures. Whether, however, Mr. Bridgeman's statement is a concession in form or one of substance cannot be determined until next year's shipbuilding program is presented to Parliament."

Prince Is Popular

London.—The second truly democratic demonstration by admirers of the Prince of Wales within a few days occurred recently when 5,000 women and flappers, who had gathered to watch the Prince emerge from a moving picture show, rushed his automobile.

Change Design Of British Coins

London.—On December 1, for the first time since 1816, a simultaneous change in the design of all British silver coinage will be effective. Gold and copper coinage will not be affected. The alterations are all on the obverse side.

C.P.R. Handles Record Amount of Grain

Grain marketing and loading figures for the week of October 22 to 28 constituted a record for the Canadian Pacific Railway since that company first handled grain out of the West during the same week the previous year. The grain rush was reached and the bulk of the great crop of 1927 loaded to elevators ready for shipment. This period saw 25,331,000 bushels of grain marketed over Canadian Pacific lines, an increase of 11,778,000 bushels over the same period of 1926, which was considered one of the greatest grain years in history of the west.

Monday, October 34—was the record day when 5,110,000 bushels were marketed. This exceeds by several million bushels the total grain production of western Canada in the year 1927.

As a result of the heavy marketing the grain loadings reported by this railway reached a record figure. For the same period this year 12,267 cars

Electric Accumulator

Is Latest Invention

Device May Revolutionize Every Form Of Transportation

London.—An electric accumulator, stated to be powerful enough to drive an express train over a long distance on any existing track without a third rail or overhead wires, is being secretly tested in London, says the Daily Express.

The accumulator, or storage battery, is the invention of a Spanish Jesuit priest, Father Almeida, of Salamanca, who is backed by a group of prominent British financiers. The device can also be used on automobiles, the paper said, which forebushes the possibility of its revolutionizing every form of transportation.

A company has been formed to develop the invention but its directors have refrained from advancing claims for it until its success is demonstrated.

Winners At Royal Show

Grain From Saskatchewan and Manitoba Given Prizes At Winter Fair

Toronto.—A sample of the new variety of wheat, known as Reward, exhibited by William Pierce of Birtle, Man., took first prize in the spring wheat (except durum), competition at the Royal Winter Fair. Some 20 samples were entered in the class.

Second and third places also went to Western exhibitors, Joseph Holmes, of Orkney, Sask., taking the second ribbon, with his exhibit of Marquis wheat, while George S. Card, of Wildrose, Sask., won third place, also on Marquis.

In the durum wheat class William Darnborough, of Laura, Sask., took first place, while his son won second prize, and J. W. McGhie, of Marquis, Sask., was awarded third.

All fall wheat prizes went to Ontario exhibitors.

Name Stations On H.B. Line

Request Made To Name Stations After Men Who Boosted the Road

Saskatoon.—Commissioner J. H. Holmes, of the local Board of Trade sent the following telegram to Hon. C. A. Manning, minister of railways: "Ottawa press dispatch, fourteenth instant, states names of stations on Hudson Bay Railway are now being decided upon. In that connection we respectfully express the hope that justice will be done to Saskatchewan men identified for over 40 years with the project, and concerning whom unanimous public opinion concedes the rendering of essential service in furtherance of opening the Hudson Bay route. Please acknowledge receipt."

Gives Figures To Government

London.—Arthur Seely, Minister of Labor, replying in the House of Commons to a question asked in the past 12 months 82 men had applied at Labor exchanges in Liverpool and district for settlement in Canada. Ten of these, he said, had withdrawn their applications and 16 were not acceptable by the Dominion authorities.

Horses For Chicago Show

Western Canada Breeders To Have Entries In Livestock Exhibition

Chicago.—The horse breeders of Western Canada, long renowned for their success in the production of high grade draft animals, will come to the International Livestock exposition here this week, favored to win a large share of the ribbons in the draft horse division.

Particularly in the Clydesdale class are they expected to make a strong showing.

Many of the familiar names among the Canadian breeders are absent from this year's entry list in the Clydesdale class. Hagerly and Hild breeders of last year's grand champion, are not entered, nor is J. H. Pearce, who bred the reserve champion. However, they will be a heavy entry from other Western Canadian breeders.

To Represent Canada

Senator Dandurand Will Leave For Geneva Within Few Days

Ottawa.—Hon. Raoul Dandurand, senator for Quebec, in the Senate, was appointed Canada's representative at the next session of the League of Nations Council, Premier King announced following a meeting of the privy council. The prime minister declared that Senator Dandurand would leave for Geneva within the next day or two to be present at the forthcoming council meeting.

Senator Dandurand represented Canada when this country was elected to the council of the league this year. The prime minister pointed out that the appointment was not permanent.

Eight Fighting Planes

Canadian Government Purchases Machines For Military Training

Ottawa.—The Canadian Government will receive eight fighting aeroplanes during the next month to be sent to Camp Borden. The planes used in present army military training are divided into three classes—initial training planes, advanced training planes, and service planes. Of the eight new planes, four are already a number at Camp Borden, but not actual fighting machines, so the final course of a military airman could not be completed there. The new planes will complete the cycle of training.

ALL-CANADIAN PRODUCE DINNER HELD AT OTTAWA

Toronto.—Sixty years of agricultural development in the Dominion of Canada were fittingly celebrated by representatives of the country's basic industry at an all-Canadian produce dinner given by Hon. W. R. Motherwell, Minister of Agriculture, on behalf of the Federal Government, on the opening day of the Royal Winter Fair. The gathering was honored by the presence of His Excellency the Governor-General and in addition to the Minister of Agriculture, and the ministers from the various provinces reflected the spirit of optimism which prevails throughout the country, the great strides which have been made along agricultural lines since Confederation and the prospects for even greater progress in the future.

Following the greeting of the Governor-General, Hon. Mr. Motherwell recalled the advances made in the industry during particular stress upon legislation designed to improve agricultural conditions, and he was followed by Hon. J. C. Elliott, Minister of Public Works, Hon. J. S. Martin, Ontario; J. Deslaur, Quebec; Hon. J. A. Walker, Nova Scotia; Hon. L. Smith, New Brunswick; Hon. A. Prentiss, Manitoba; Dr. Warzak, British Columbia; Hon. W. M. Lea, Prince Edward Island; J. J. Robertson, Saskatchewan; and Hon. George Hoadley, Alberta.

The gathering concluded on a note of caution by the Alberta minister while endorsing the optimistic remarks of the various speakers appealed for earnest consideration of the immigration problem. He declared that because of the great industry which had been built up the question as to further settlement and development should be gone into carefully.

"Who are we going to ask to come to Canada to develop all these things—anybody?" queried Mr. Hoadley. "Our country is a great one, and we must bring to the people who are to be brought into the country."

Denied Vote In Transit

Detroit, Mich.—That a Canadian land legislator, by a vote of 25 to 11, has rejected Joseph Devlin's bill giving women the right of franchise at 21, the same as men, Premier Lord Dufferin said that when the government introduces it is to abolish proportional representation, hoped to embody it in a provision for the enfranchisement of women at 21 if the British parliament had the same.

Gigantic Airplane Carrier

Camden, N.J.—The United States navy's newest and largest aeroplane carrier, the Saratoga, has gone into commission capable of making 23 knots, with its electrically driven propellers, the mammoth \$5,000,000 ship also said to be the fastest large boat afloat. It is to be equipped with 24 aeroplanes and when completed will be assigned to the Pacific fleet.

MANITOBA OFFER TO FINANCE ROAD MAY BE ACCEPTED

Winnipeg.—It is regarded as practically certain that the provincial government's offer to make annual payments of \$100,000 for five years, to effect possible operating losses, will be accepted by the Dominion Government, and that an almost immediate start will be made with construction of a railway from near The Pas on the Hudson's Bay Railway, to the Flin Flon mining area.

The offer was made by the Bracken Government as an alternative to the request by the Dominion Government for a cash subsidy of approximately \$500,000. A message received from Ottawa stated that the offer had made a good impression at the Dominion capital. It is recalled that Hon. Charles Dunning, Minister of Railways and Canals, informed Premier John Bracken at the recent Dominion-Provincial Conference that though he had at the moment favored the cash subsidy plan, if Manitoba put forward a proposition on the lines now set forth, it would be accepted.

The construction of a railway into the Flin Flon area will mean great development of the northern country, and, it is stated, will involve a capital investment of \$50,000,000, including \$30,000,000 in the immediate Flin Flon district.

Bandits Attack Train

Soldiers Killed and Passengers Wounded On Mexican Train

Mexico City.—Eighteen soldiers and one officer were killed when a large group of bandits attacked a passenger train between the Federal Capital and Aguascalientes, despatches from Aguascalientes state. The bandits executed the engineer and a fireman.

Three soldiers and six passengers, including a woman and two children were wounded in the attack. No detailed account of the attack was given, the despatches merely stating one officer and the soldiers, entrenched in one of the cars, fought to the last.

The train afterwards arrived in Aguascalientes with the wounded. It was presumed the bandits had been dispersed before the train continued its journey.

Nine soldiers of the train guards were killed and 12 second class passengers and an express messenger were injured when several coaches of the Puebla Vera Cruz passenger train jumped the tracks and turned over. The accident occurred about 55 miles from Jalapa.

Will Support Commission

United States Decides To Go-Operate On Disarmament Question

Geneva.—The United States has officially decided to continue its cooperation with the special disarmament commission created by the League of Nations, and to participate in a general conference on reduction in world armaments.

Washington notified the League that Hugh R. Wilson, United States minister to Switzerland, had been appointed American representative on the commission which meets at Geneva, November 20, to continue work on the preparation of a draft treaty.

Man With the Longest Beard Dead

Wahpeton, N.D.—Hans Langness, 82, Richland County farmer, famous for his 17 foot beard, is dead. For years after letting his beard so impudently grow, he travelled around the world with a circus without meeting a match for his beard, which he could wrap around his neck like a long muffler. In 1925 he won the world's longest beard championship at the days of 49 exhibition in Sacramento.

Denied Vote In Transit

Detroit, Mich.—That a Canadian land legislator, by a vote of 25 to 11, has rejected Joseph Devlin's bill giving women the right of franchise at 21, the same as men, Premier Lord Dufferin said that when the government introduces it is to abolish proportional representation, hoped to embody it in a provision for the enfranchisement of women at 21 if the British parliament had the same.

Gigantic Airplane Carrier

Camden, N.J.—The United States navy's newest and largest aeroplane carrier, the Saratoga, has gone into commission capable of making 23 knots, with its electrically driven propellers, the mammoth \$5,000,000 ship also said to be the fastest large boat afloat. It is to be equipped with 24 aeroplanes and when completed will be assigned to the Pacific fleet.

Miners Committee Statement

(Continued from Page One)

The holes marked "C" three of which are in the footwall and one short hole (intended to shoot down a piece of rock or boulder) on the hanging wall, are presumably still charged with powder as the fuse wires are attached, ready for firing.

Four holes marked "E" in the sketch are empty, and are drilled to the depth of about five feet.

It would be proper to state here that the shots already fired had been well placed and did excellent work as to breaking, the remaining holes bored but not tamped are also well placed, and in accordance with the best mining practice.

With regard to the amount of powder in the shots now standing charged an approximation can be made after examining the amount

of work each shot had to do, and by drawing on general practice in such circumstances.

As these holes had been drilled approximately 5 to 5 1/2 feet deep, we feel safe in estimating that at least 16 ounces or two sticks of powder were required for each shot showing in the footwall, and a lesser amount, possibly 8 ounces, in the shot standing charged on the hanging wall, and with the shots estimated to be fired, along with those already charged would require 7 1/2 pounds of powder.

In the matter of quantity of powder allowed to be taken into the mines the Mines Act makes the following provisions:—

Mines Act Section 66 Sub Section (1) No explosive shall be taken into any mine nor shall it be taken into any mine except in a secure case or canister containing not more than five pounds.

Sub Section (2) There shall

not be at any one time in any one place in a mine more than one case or canister; but for driving or rock tunnels the chief inspector may grant permission in writing for a sufficient amount of explosive to be taken into the mine by one or more persons in secure cases or canisters containing not more than twenty five pounds in each such case or canister.

The gangway at this point, could not be defined as a rock tunnel, and in this case, the amount of powder would be in excess of the Statutory allowance.

Ventilation had been carried from the last raise, or crosscut Number 30 to near the gangway face, a distance of about 90 feet, by canvas brattice.

The coal seam at this point is faulty, and steeply inclined. The method of timbering is the "three piece of two legs and collar." The seam being steeply inclined the roof

above the timber sets is the coal seam. It frequently happens in ground such as is here described, that the coal will break down higher than the desired height for the timber sets and after lagging has been placed over the sets, a cavity still remains in which gas could accumulate and which. We offer this as a strong probability.

We would point out before leaving the matter of empty space above the timber sets, that when blasting takes place, the concussion from the blast will shake loose small quantities of coal in these empty spaces, and where the lagging is not skin tight, the coal filters through this lagging, carrying with it any gas that may have accumulated in the cavity down into the air current, and when on the intake side of the canvas, this gas would be carried into the face of the gangway where firing was taking place.

There would be difficulty in detecting such gas in smoke from shots in the blasting of rock, but sufficient gas would be mixed in the air to cause ignition when exposed to a flash or flame from one of the shots.

It should also be pointed out, that in faulty ground such as was being encountered at this point, small veins of coal, and small pockets of coal, are often presented in the rock, which is true in this particular ground. This could release small quantities of gas, in addition to creating much fine coal dust from the heavy blast.

We would here call attention to the fact, that the management had given instructions, that blasting in this section of the mine must take place on the midnight shift. From this, it is apparent that the management were conscious of some additional risk.

We have evidence that a distinct flame had been observed when blasting with the same powder as was used on this particular occasion, namely Gelpermite No. 1. This same flame was not seen in every shot fired, but in about one to every four or five shots fired with this class of powder.

Still another factor relative to this powder should be stated here. It was found that many of the cartridges were improperly packed, having quite a space inside them that did not contain powder. If these cartridges had been properly filled when sent from the factory, then some deterioration must have been set up to form these empty spaces, and to make a lighter cartridge. It was also observed that this particular powder was not coated with a water proof dressing, as required by Coal Mine Order No. 8 dealing with explosives.

We would then ask that if these lighter cartridges are the result of deterioration, what would be the chemical effect of the mixture remaining, and was this effect the cause of the flame seen at various times when using this particular explosive?

This particular class of explosive has been taken from the list of permitted explosives since the explosion at this mine, and we feel the necessity of this Commission thoroughly exploring this agency as a primary cause of the explosion.

We would emphasize the fact, that owners and agents and managers, as well as the Government have protected themselves against any looseness on the part of the manufacturer, who is the sole authority as to whether the explosive contains the proper ingredients as defined in the Mines Act for such explosive. For if the smaller and lighter cartridges that are found are the result of careless filling, it is also reasonable

to assume that the same negligence could occur in mixing the ingredients of the explosive, which would bear out the need of some government agency to check against the manufacturers of these permissible explosives.

Against this possible deterioration of explosives the owner, agent or manager has protection, also the chief inspector of mines. This provision is set out in the regulations to the Mines Act of this province being Regulation No. 20 Sub-section (a).

We desire to state that we deplore the fact that no government testing station exists in Canada for the purpose of testing explosives, permitted or otherwise which are now in use in the mining industry in Canada, and the attention of the Federal and Provincial governments should be drawn to this fact. Canada should not be obliged to draw on sources outside of this

ROLAND CRAFTYD

The Irrepressible Mr. Deachman

A former Calgary newspaper man, J. R. Deachman, acting as representative for the "Consumers' League of Canada," who makes his headquarters at Ottawa, has recently been the subject of considerable query as to who he is and what he represents. A short time ago he wrote an article the tone of which was decidedly against Alberta coal being shipped to Ontario. This week he writes a letter to newspaper editors stating that he would be pleased to write weekly articles on important questions at Ottawa as much per.

If Mr. Deachman's letters are in keeping with his attitude on Alberta coal, then they should find a way to the waste paper basket of most western newspaper offices in the shortest possible time.

If the owners of those horses straying around town were left to shift in the cold wintry blasts to scratch for a living, they would think it very cruel indeed. It is an offence against the finer feelings of most people to see animals cast adrift.

The right of way for the Calgary-Fernie railway has been cut for about thirty miles above Michel. The work is approaching the C. P. R. crown granted coal lands where there is a very valuable stand of spruce and pine timber and we understand the Company is keeping its eye peeled for any infringement of its rights. It is said that the timber has been cut without permission on some private lands already crossed.—Fernie Free Press

At the Palace theatre for the week-end the feature picture will be "What Price Glory?", with Victor McLaglen as the star. This picture was so favorably received in Calgary that it was held over for several showings beyond its original booking.

Miners Committee Statement

(Continued from page 4)

cometary for important and necessary information on which rests the preservation of both life and property.

With such testimony before us, and after examining thoroughly that section of the mine affected, we believe that the explosion which occurred and had its origin at the gangway face, of Level Number 4, north, No. 2 Seam, in the McMillanville Coal Company's mine at Coleman, was caused by the ignition of gas or coal dust following blasting in rock with an explosive known as Gelpemite, Number 1.

RECOMMENDATIONS

(1) In reference to the flooding of the No. 4 Level of the No. 2 Seam, McMillanville Creek Coal Mines by water, while we found evidence which showed that the victims were killed by the explosion blast before flooding took place, we would recommend that in future disasters of this nature, no flooding of the mine by water shall take place when bodies of mine workers are known to be underground, until representatives of the workmen at that time have been consulted on such a procedure.

(2) We recommend: That ten sets of mine rescue apparatus, sufficient to equip two teams of five persons on each team, be kept and maintained in good condition at the mine to meet the requirements of a similar disaster, in those mines where explosive gas and coal dust are found.

(3) We recommend: That the Federal and Provincial Governments be asked to install a suitable plant to be used for testing permissible explosives, where tests can be undertaken on request of bona fide representatives of mine operators or mine workers.

(4) We recommend: That in future, where blasting is necessary, the side, roof and floor be thoroughly sprinkled with water or rock-dust for a radius of 60 feet before shots are fired, as provided for in Section 66 Sub-Section 12 of the Mines Act.

(5) We recommend: That in places such as this gangway where a coal roof exists above the gangway timbers, that an air hose be used to clean out and ventilate any cavities where gas may exist for the distance of sixty feet from the working face, or the point where shot firing is necessary before any such shots shall be fired.

(6) We recommend: That Coal Mines Order No. 8, dealing with the permitted explosive known as Gelpemite No. 1, be repealed.

—Respectfully submitted: Andrew Dow, David Gillespie, Frank Wheatley.

Charlie Graham returned this morning from Brooks, Alta., after several weeks spent there on a painting contract.

Keep the Sacks

Messrs. Lecky & Ledieu have been appointed as dealers in Coleman for "Mother's Flour," a novel feature of which, besides the excellent quality of the flour, is that the sacks are made of fine, useful gingham. Therefore if you keep on buying this flour, you can gradually assemble sufficient gingham to provide all sorts of handy little garments to say nothing of curtains

and other what nots, as there is a yard and a fifth in each sack and the print washes off easily. It would therefore be safe to make a light summer suit if you have sufficient sacks without the disadvantage of having "Mother's Flour" printed across the seat of the lower half.

Store advertising is store news which is of daily interest to the people who buy.

Hear This Amazing
Westinghouse Model 57

The unparalleled performance and pleasing appearance of this new model will amaze you. It sets a new standard for radio sets of the moderate price class. Contains all the latest improvements, including auto-dial control. Uses the new Westinghouse UX-201-B radiotrons which consume but half the filament current of tubes of equal power. And the price is only \$78.00, tubes extra.

The 57 is but one example of the surprising values awaiting you in the complete new line of Westinghouse radio sets. There is a model to meet every requirement of socket or battery operation—one that will serve you best in your location—at a price that will suit your purse. Demonstrations gladly given in your own home or at our showrooms. Arrange for one to-day.

WORLD HAPPENINGS BRIEFLY TOLD

January 17 to 20 inclusive are the dates for the annual convention of the United Farmers of Alberta, probably in Calgary.

The average cost of a weekly family budget of 29 staple foods was \$10.59 at the beginning of October as compared with \$10.87 for September.

Sir Harry Lauder, who has been in retirement in Scotland since the death of his wife last summer, will return to the stage in the winter.

All departments of the Alberta Government have been notified their programs of legislation for the next session of the legislature must be in hand by the end of December.

The Rev. Herbert Quarrle, athletic vicar of St. Andrew's parish, Jersey, proposes to conquer the English Channel in an exhibition swim to raise money to complete the building of his half-finished church.

France is rapidly becoming the greatest producer of new postage stamp issues in the world. In addition to recent special stamps issued in honor of the American Legion visit, four special issues have appeared within a month.

Moukhar Bey, Turkish diplomat, has been appointed Turkish ambassador at Washington. Turkey has not been represented by an ambassador at Washington since the break in relations between the U.S. and Turkey when the U.S. entered the world war.

Lovers: "Why do you want a separation from your wife? Aren't your relations pleasant?"
Thred Insinner Man: "Mine are, but hers are perfectly horrid."

All a man has to do when he goes shopping with his wife is to take notes.

For all pains—Minard's Liniment.

It's a pretty safe rule to judge a man by the people he doesn't keep company with.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Freshness and fever, too, it cures no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Delicately pure vegetable, you can give it as often as there's a sign of colic, constipation, diarrhea, or need to aid sound, natural sleep. Just one warning: It is genuine Fletcher's Castoria that physicians recommend. Other imitations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the look on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Alberta Steers For Chicago

Price Received Sets a New Figure For This Season
Forty-one head of Alberta grass-finished steers shipped to Chicago last month set a new figure on that market this season for this class of cattle. These steers sold at \$14.65 per hundred pounds, exceeding the previous high price by 65 cents. Good prices on the American markets have attracted large shipments of cattle from the western provinces during the past few months.

Flared Skirts Are Shown On Many of the Newest Frocks

This charming one-piece frock, having the appearance of the two-piece, would be smart if fashioned of either silk or suit material. The modish flared skirt is joined to the bodice having a scalloped left side opening. The neck may be cut low and simply bound or made high and finished with a round collar. Long darted sleeves have hand cuffs, and a belt causes a slight blouse. No. 1683 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards 39-inch, or 2 1/4 yards 44-inch material. Price 29 cents the pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every busy dressmaker. Price of the book 19 cents the copy.

Watch Winds Itself

A Lancashire man has made a watch that winds itself. It is intended to be worn on the wrist and has a small weight ingeniously incorporated in the mechanism. The movement impelled by the arm as it swings while walking causes the swinging weight to give a turn to the spring. The spring keeps wound for forty hours, and only half an hour's swinging is necessary to wind the watch.

Exhibiting Mystery Wheat

New Variety Will Be Shown at Chicago By Alberta Grower
Herman Treile, of Wembley, the Alberta wheat wizard, has definitely decided to exhibit his "Mystery" wheat at the forthcoming International show at Chicago.

Reference has been made from time to time to this new variety of wheat with which Mr. Treile has been experimenting, but it was not by any means certain whether he would include it in his exhibit at Chicago this year.

It is the general expectation among grain men that it will create a still greater interest than his Marquis wheat last year.

Wheat growers everywhere have been keenly interested in the experiments that have been carried on by Mr. Treile inasmuch as it is stated his new variety will ripen quite two days or a fortnight earlier than Marquis. Mr. Treile states that the "Mystery" has been the best wheat grown on his farm this year. Test samples weighed more than twenty pounds to the bushel and graded No. 1 Northern.

In addition to its early ripening it is claimed that the new wheat is much more frost resisting than any other wheat known. What Mr. Treile has aimed at is to produce a wheat that would lend itself to be cut and threshed by the combine harvester and yet be equal, if not superior, to Marquis, particularly so far as its millable qualities were concerned.

Aided Progress Of Locomotion

Albert Champion, Spark Plug Manufacturer, Dies In Paris

Albert Champion, Franco-American Spark Plug manufacturer, died recently in Paris while on a vacation from the United States.

Champion's life was devoted to keeping up with man's progress in locomotion. From a messenger boy in Paris at 6 francs a week he became one of the speediest cyclists in the world. With the coming of the internal combustion engine he became an automobile racing driver.

Champion then emigrated to America, where, in 1905, he founded with W. C. Durant, the automobile manufacturer, the Spark Plug Company, which made him a millionaire, with plants in America, England and France.

Only a few days ago he remarked that the two things of which he was most proud were his bicycle championships and the fact that his spark plug fired the motors that carried Lindbergh, Chamberlin and Byrd across the Atlantic. His race was on.

In honor of Benjamin Franklin, a tablet has been erected at Paris, France, to mark the spot where the distinguished citizen of this country landed for one of his brief visits to that country.

A subway system of pneumatic tubes beneath New York streets delivers 5,000,000 letters daily to subscribers.

National Parks Attract Tourists

Many Distinguished Visitors Were Guests At Mountain Playgrounds This Year

Tourist travel to the National parks during the season that is just closing has been exceptionally heavy and the number of distinguished visitors the largest in the history of the parks.

The most notable of these were, of course, Their Royal Highnesses, the Prince of Wales and Prince George, who, with Premier and Mrs. Baldwin and other members of the Royal party, spent several days informally at Banff and Lake Louise visiting their strenuous tour across Canada.

Earlier in the year Rafting was honored by a visit from Their Excellencies, Lord and Lady Willington, who spent a few days there on their first trip to the West. This autumn their Excellencies returned for a couple of weeks' holiday in Jasper park, enjoying with their party the fishing, golf and motorizing of that superb Alpine playground.

The number of private parties many of which travelled in special trains, was also unusually large, and included a special party of delegates to the Pan-Pacific Relations Congress at Honolulu, among whom were Sir Frederick White, Viscount Castleknock, Lionel Curtis, famous founder of the Round Table, Malcolm MacDonald, the Hon. William Astor, son of Lord and Lady Astor, the Hon. Hugh Wyndham, Sir Arthur and Lady Currie and a number of other prominent citizens of the Empire.

Other visitors were the British Editors' party of about 125, a party of delegates from the World's Power Congress comprising over 100, and 200 delegates to the Triennial Congress of Mining and Metallurgy. Special parties from the United States included 100 members of the Investment Bankers' Association, travelling in four special trains; the New Outlook Magazine party number 200; and delegates to the Convention of the World's Fair, who took in two special trains. Several large special parties came also from Ontario and Quebec, including one of about 150 visitors who travelled under the auspices of Laval University, Quebec.

Indians Return To Forefathers' Religion

Tribe Of Six Nations Will Restore Old Customs

Closing a three-day religious powwow at the Cagheh-nagwa reservation, just across the St. Lawrence river from Montreal, Indians of the six nations decided to abandon the Christian religion and return to the religion of their forefathers.

Old Indian deities worshipped before the white men invaded America and made famous in Longfellow's "Hiawatha," will be restored.

Chief American Horse and Chief Two Axes are the leaders in the reformation. The three-day powwow has been in reality the inaugural of religious services of their forefathers' religion. One of the leaders said they were turning back to their forefathers' God, the Great Spirit, for sympathy in their present state, tied down as they were by the white man's laws.

Essential For Business Success

Values and service are the two essentials of business—cut them apart and they die. Your success depends absolutely on whether or not you are honestly giving these two things to the public for its money. Disregard them and you do not advance.

SUNDAY SCHOOL LESSON

NOVEMBER 17

ISAIAH TEACHES TRUE WORSHIP

Golden Text: "Who shall ascend into the hill of Jehovah? And who shall stand in his holy place? He that hath clean hands, and a pure heart."—Psalm 24, 4.

Lesson: Isaiah 1:1-20.

Devotional Reading: John 4:21-24.

Explanations and Comments

I. The Perseverance of God's People, verses 18—"The Great Arrangement" is an apt phrase given to this chapter by Ewald. God's chosen people have rebelled against Him. Even the dumb animals, the ox and the ass, are responsive to their masters, but the people of Judah do not consider their Lord. This perseverance has brought punishment upon them, and it is only because of Jehovah's mercy that they have escaped the fate of the people of Sodom and Gomorrah.

II. Outward Signs of Religion. Zeal Do Not Deceive Jehovah, verses 16-17—"The prophet now hears in spirit the remembrance of his audience, Delitrich thinks. "They would vainly represent the accusations which he had just uttered as unfounded, by appealing to their exact observance of the divine law, but in opposition to this ground of self-indication which the prophet has read out of the hearts of those imposed, he but proceeds to prove the divine arrangement which begins in verse ten."

"Hear the word of Jehovah, ye rulers of Sodom," the prophet cries, "give ear unto the law of our God, ye people of Gomorrah." By addressing them as "rulers of Sodom" and "people of Gomorrah," he reminds them alike of their wickedness and of their danger. The "law" to which he bids them give heed, is the inspired discourse he is about to deliver.

A Dangerous Practice

Despite Repeated Warning Many Run Engines In Closed Garage

At the beginning of cold weather each year, warnings are broadcast against the danger of carbon monoxide poisoning. And each year, like those previous, deaths from carbon gas fumes continue to trickle into the news as profusely as ever.

Perhaps this is only a scare, like the railroad crossing buxabo. We've seen many thoughtless drivers cross tracks without shifting to a lower gear or hesitating a moment. And nothing happened.

Yet news of accidents at railroad crossings continues to be printed, and reckless motorists continue to cross crossings any way but cautiously.

So it is with running the engine in a closed garage. Write about it, broadcast it, hammer it into the heads of some automobile owners, and somehow or other there remain a few who have never read newspapers or listened in on the radio, or whose heads are impervious to the heaviest blows. This is the hopeless class for which we must continue to keep pumpkins ready and whose lives we must save.

World Wheat Harvest

The combined North American crop of wheat in 1927 is estimated at 61,000,000 cwt., a net reduction of 3,000,000 cwt. on the year, but about equal to the five-year average. India's wheat harvest has yielded some 2,000,000 cwt. more than last year's crop. Russia's harvest is generally expected to be 20,000,000 cwt. above the 1926 yield. Hungary's crop will be over average, and Bulgaria's 2,000,000 cwt. more than that of last year. Argentina has some 28,000,000 cwt. surplus wheat.

The mere offer of a match will sometimes light up a girl's countenance.

Charleston Dance Contest

Judged By England's Leader

Miss Leslie-Sutton, chief judge of the Charleston contest for England, writes: "My unique position in the dancing world today would never have happened if I had not taken care of my health. I constantly had that tired out, depressed feeling, with sick headaches, indigestion, biliousness caused by the poison of constipation."

Your mind inactive has been of valuable assistance in keeping my system in a daily healthy condition."

World's Greatest Menace

Shiftlessness Appears To Be Growing

Some people say the Great Menace is one thing and some another. I believe, indeed, that there are several hundred, all of them serious enough.

My opinion is the great menace is growing shiftlessness. Look where you will, and you find lack of respect for the old industry and morality: People are demanding dangerous liberty; dangerous prosperity.

Debts—public and private—crowding up. People are leaving farms to go to the towns, where they become Citizens of the World, and declare the world owes them a living.

And where business is transacted with difficulty because of the great number of automobiles occupied by people having a good time.

The world has always been shiftless, but the shiftlessness of today is much worse than anything in the past. We do not lack education; all the higher things are progressing.

But attended by a shiftlessness that is surely alarming.—E. W. Howe's Monthly.

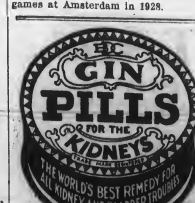

Wise is the man who pays for what he gets and gets what he pays for.

For Your Stock

Minard's is a handy and effective first aid both in the stable and barn.

The French Senate has voted a subsidy of 2,000,000 francs (about \$80,000) for the expenses of French athletes to participate in the Olympic games at Amsterdam in 1928.

THE WORLD'S BEST REMEDY FOR ALL KIDNEY AND BLADDER TROUBLES

ALBERTA EDITORS AT CONVENTION

Officers, members and their wives and guests of the Alberta Press Association, on the roof garden of the Palliser Hotel, Calgary, during the annual convention, which closed Saturday, October 22nd.

THE GREAT HERBAL SKIN BALM

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XII.—Continued

Three mines were in operation now, all owned by the same company and all subject to the same conditions. Every one in the valley felt that his stay was but temporary, so no one called it home.

Facing the station stood the boarding house, where the single men had their meals, a great weather-beaten building, square as a box, sun-dried and starting. The front of it bore a sign, printed in black letters on a white board:

"Elite Boarding House."

M. McMan, Prop."

M. McMan knew that Earle Mines could never be her abiding city. Indeed, he had no hesitation in declaring that Canada would never be for her as soon as she made her home. She would go back to God's country, which in this case meant Lincoln, Nebraska. Mrs. McMan had often wondered audibly why she had left. Certainly it was not for lack of friends. No woman ever had more friends, and though absent from them now she was not forgotten. To the boarders she gave verbalistic letters she received. Her friends were very impatient for her return. "Why in the world do you bury your self alive in that cold country, where they have only three seasons, July, Autumn and Winter—a woman like you, who can make her way any place?" or "Everybody is asking me when are you coming back—you sure would get a royal welcome."

Some of the boarders rather impatiently urged her to go and never mind them—so warmly, indeed, that Mrs. McMan grew rather reserved on the matter. It is sometimes a decided social blunder to agree with everything that is said.

Mrs. McMan had returned to his native land the year before, shaking off the rather cumbersome yoke of matrimony at the same time, and leaving a letter saying that so far as she was concerned he was dead—for it certainly was not her fault that he wasn't—and that he would leave her the farm and the insurance, too, if she would sign a paper saying that she would never try to find him. He "promised to God" she would marry again, though he realized it was a mean thing to wish on anyone; but in another way he would be glad for someone to know from actual experience what he had gone through. And he was "feeling" his preparation, as he loved she was enjoying the same great blessing.

Mrs. McMan accepted the farm

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's
Vegetable Compound Could Do
All Her Work and Gained
in Weight

Melfort, Saskatchewan.—"I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood-Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh more than I ever. I get out of sorts or weary and can't sleep. I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking for it."
WILLIAM BUCHANAN, Box 48, Melfort, Saskatchewan.

And he did not reticulate by telling her a word about himself.

Young Mr. Doran was deeply impressed when Mrs. McMan hinted at some dark and mysterious disease bravely borne: "I am dying on my feet," she had told him the second day he was there, "but no one will know it till I am gone. It's my way. It's the proud Weaken way. I was a Weeker. Cut me in inches if you like, I will never complain. Poor Mr. McMan of ten remarked on it. 'Girl, you're a wonder,' he often said—he was a great hand to call me 'girl'—he said I was always just a girl to him."

"But see here, Mrs. McMan," protested Jack, in real concern, "why don't you get help here? You're foolish to work so hard. You have plenty to do when you are the cooking. Get a girl to do the dingy work—there are lots of girls who would be glad of a job, for the summer anyway."

"No, I've tried girls. They get lonesome. It's too far from Jasper Avenue and the Allen Theatre. I don't know what's got into the girls now—they won't work—all they want to do is to primp. They can't cook—they won't learn. They'll depend on canned stuff when they get married, and starve if they lose their can openers. No I won't have nippers."

"That there's lot of good girls, smart and tidy and all that," protested Jack.

"Yes, maybe, but where could I get one this way?—You tell me all I'll pay."

This conversation took place at noon. On the four o'clock train came them.

The sun poured down with a pitiless glare on the confirmed ugliness of the little box-like houses. The kindly white snow which had covered the littered backyards, was gone, and now there came in full the piles of discarded clothing, old boxes, and the benches which the snow had fully hidden. Water stood in puddles on the one-little street where the general store, the hotel, postoffice, saloon, and boarding house, sat side by side all looking at the station, which because it belonged to a system and was not dependent on local caprice, had walls of stone gray and a red roof. So far as could be seen, not another tint of paint had ever entered a footstep in Earle Mines.

(To Be Continued.)

Homesteads in H.B. Area

Excellent Land in North Soon To Be Available For Settlement
The Saskatchewan Land Sale and The Saskatchewan Daily Star has successfully completed in urging upon Ottawa, that lands tributary to the Hudson Bay Railway be thrown open for homestead entry. It is now announced that immediate action will be taken.

The famous clay belt, estimated to contain between 6,000 and 7,000 square miles will alone provide 25,000 farms of 160 acres each.

It is considered that the successful growth of wheat, oats, barley, fodder and root crops at the experimental stations at Mile 137 and Mile 185 have been an effective demonstration of the agricultural possibilities of the lands soon to be available for settlement.

Commissioner J. H. Holmes has strongly impressed to Premier Mackenzie of Manitoba, that land near The Pas be thrown open and asked his support that homestead areas be defined in Northern Manitoba, and that to facilitate economical entering by intending homesteaders, sub-land offices be established north of The Pas.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. It is easily procurable and extremely moderate in price—no one should be without a bottle of it.

Silk Manufacturing
One of the largest French silk manufacturing firms will establish a factory in Canada. The plant will likely be located in the St. Catharines district, Ontario. There will be an initial installation of from 20 to 25 looms and 40 hands will be employed.

DODD'S KIDNEY PILLS
FOR ALL KIDNEY DISEASES
BRIGMANTON'S
4087 THE PRINCE

Of the millions of packages of Red Rose Tea sold, few, if any, are returned as unsatisfactory. That's because Red Rose is packed only in Aluminum. There is never any loss of flavor through dampness. Never any staleness or deterioration. The bright, clean aluminum container keeps Red Rose as fresh and flavorful as the day it was packed.

A German On Russia

Misery Among the Working Classes Described As Appalling

A well-known German Socialist, Dr. Otto Friedlander, who took a trip through Russia this summer, and coming by the Soviet to study conditions in the country at will, has just published his impressions. Living conditions he found very bad. Two families often have to live in one room, separated merely by a chalk line. The misery among the working classes has resulted in an army of parentless and homeless children, who live by begging, stealing, and sometimes by even worse methods.

The Soviet municipalities spend gigantic sums of money for propaganda purposes, a generation of criminals is springing up, whose forcible destruction is being seriously demanded by the Russian peasants. The suppression of freedom of opinion is absolute, and for non-Russians unbearable. Intellectual depression lies over the land. Dr. Friedlander's opinion is that the position of Russia is bad, and that fresh credits are not obtained from abroad very soon, the country will undergo fresh economic shocks.—Dublin Irish Times.

Radio Reduces Cable Receipts

Wireless Generally Has Cut Finances Of Pacific System

A disturbing report with regard to the financial results of the Pacific cable, the Canadian Press learns, will be presented shortly to the governments concerned those of Great Britain, Canada, Australia and New Zealand. The use of Empire radio system and wireless generally has resulted in the reduction of the Pacific Cable Board's receipts at the rate of \$25,000 (\$475,000) annually. It is said, and this will not represent the peak of the board's loss.

The Pacific Cable Board is apprehensive that the Dominion station at Montreal, which will be completed shortly, will result in increased competition and will affect unfavorably the present cable traffic from the U.S. The receipts of the Pacific Cable Board for the current year may meet the expenditures, but it seems inevitable that future years will show a loss.

Garnet Wheat In Alberta

May Largely Replace Other Varieties On Heavy Black Land

Experimental data and field observations indicate that Garnet wheat will fill a long felt need in Central Alberta, states the superintendent of the Lacombe, Alberta, Experimental Station, in his latest report. It gives a yield which compares favorably with the highest yielding varieties and matures as quickly as any of the early maturing sorts with the exception of Prelude. An area of 61 acres of Garnet wheat was sown at the Lacombe station last summer. The average yield was 40½ bushels per acre although only 15 per cent of the area was summer-fallow or fallowed a long crop. Samples of the wheat were placed one grade higher than March. The superintendent believes that Garnet will largely replace other varieties on the heavier black land of central and northern Alberta where late maturing kinds are subject to frost injury.

And This Is Law
Connecticut has a windshield wiper law which says all motor vehicles except motorcycles must have windshield wipers. Albert Rubenstein said a truck but no windshield wiper. A matter of fact there was no windshield on the truck to be wiped. There was the windshieldless truck and there was the law. The law was "Five dollars, and costs," said Judge Deane in town court. Albert is in the market for a wiper.

The custom of calling Boston the Hub comes from a saying by Oliver Wendell Holmes in his "Agitator of the Breakfast Table" that "Boston Statehouse is the hub of the solar system." The saying was corrupted to "hub of the universe."

He: "I had a wonderful time at your party last night."

She: "Why, I had no party last night."

He: "That so? Well, believe me, I was at somebody's party."

Minard's Liniment for Chilblains.

Endorse Work Of World Alliance

Messages From Prince Of Wales and Premier King Read At Meeting

Endorsements of the work of the World Alliance for International Friendship and expressions of hope for continued world peace were contained in messages from four countries read at the International Goodwill Congress at St. Louis, Mo. Two of the messages were as follows:

H.R.H. the Prince of Wales, through Sir Godfrey Thomas:

"His Royal Highness' feelings are in full sympathy with an organization that seeks to make more effective the influence and the conscience of Christianity in striving to prevent causes which ultimately lead to war."

Hon. W. L. Mackenzie King, Prime Minister of Canada:

"The influence of the churches cannot fail of reaction on public opinion, if Christian men and women everywhere but unite in furthering the ideal of peace on earth, good will toward men, which is the very foundation of all true happiness and progress."

B.C. Whales Catch

The total whale catch on the British Columbia coast this year amounted to 261 mammals, it is announced by Captain George Lemarquand, following the return of the last of the Consolidated Whaling Corporation's fleet from the hunting grounds off Queen Charlotte Islands. Last year 269 whales were taken—an increase of 8 over this year's catch.

THE ONLY MEDICINE BABY HAS HAD

Is What Thousands Of Mothers Say Of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little one she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says: "I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact they are the only medicine she has ever taken. I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Some people can't stand propriety and some can't even get a chance to try.

Minard's Liniment for Neuritis.

"S" is a dangerous letter in a controversy because it turns words into swords.

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While 10 tablets are in each box, the Bayer name is on every tablet, and on the box. So labels will be examined with care. "Bayer" is the name of the manufacturer.

Apron sale and afternoon tea will be held in the Moose hall on Sat. Nov. 26.

Service at St. Alban's on Sunday, November 27, (Advent Sunday) at 7 p.m.

Chas. Nicholas was a visitor to Calgary this week making new purchases of winter stocks, in anticipation of a brisk pre Christmas trade.

You can order any magazine or periodical published at The Journal office. Subscriptions taken for British, Canadian, U. S. or European countries.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evenings and on Saturdays, by appointment at your own home. Phone 295D. advt.

For full information how to bring out your relatives or friends from Great Britain and Northern Ireland at reduced rates, apply to H. T. Halliwell, agent, Cunard Steamship Co., Ltd., Coleman.

The drifts at the slide at Frank have caused considerable trouble to motorists, and several stripped the gears on Tuesday night in an effort to plow through the snow. The Red Trail bus cancelled its trips till the road was cleared.

Alex. M. Morrison left last evening for Calgary, the object of his visit among other things being to see a demonstration of the long-looked for and anxiously-awaited new Ford car. Announcement concerning this car will appear in the next issue of the Journal.

The prize-winners at St. Alban's W.A. weekly whist drive on Saturday were Mrs. D. Nelson and Mrs. Dafoe; Mrs. Cornett and Fred Thom. These enjoyable whist drives are held every Saturday night during the winter season, and the public are cordially invited.

Bellevue had a fire scare on Tuesday evening, when the high wind blew down the chimney on Ed Mayer's house, giving off a shower of sparks that caused the fire alarm to be sounded. Over fifty men rushed to the spot to prevent further damage.

H. C. McBurney's setter dog objected to being left in the store overnight on Saturday, and made a wreck of the front window displays in its efforts to break out. Fortunately no serious damage was done, such as the breaking up of expensive bric-a-brac and other expensive articles.

Roddy McDonald, the well known boxer of Drumheller, formerly of Coleman, has received word of the death of his mother at Glace Bay, Nova Scotia, at the age of eighty-two years. Besides her son in Drumheller and other sons and daughters in Cape Breton, the late Mrs. McDonald leaves a daughter, Mrs. Samuel Hatfield, of Coleman. —Blairmore Enterprise.

Mr. and Mrs. Roy Hart expect to leave on Saturday for Portland, Oregon, their former home city, after over two years residence in Coleman, Mr. Hart having been manager of the Scott Fruit Co. warehouse here, and an active member of the Elks Lodge. The good wishes of a large number of friends follow them in their departure from the Pass.

Corporal J. J. Weaver, R. C. M. P., of Blairmore, states that radio licences of \$1.00 must be in the possession of those operating receiving sets, and same are payable to him. Recently an advertisement from the Dept. of Marine & Fisheries was published in The Journal, advising radio owners that licences must be obtained by them, and that failure to secure one will render the owner liable to a penalty of \$50. Secure your licences as early as possible and be on the safe side.

NOTICE

The Ladies Auxiliary of St. Paul's United church will hold a sale of work and poultry table in the club-room on Sat. Nov. 26. Tea served from 3 to 6 p.m. advt.
